1	Write a Python program which accepts the radius of a circle from the user and compute the area.	20-01-2026		
2	Write a Python program to calculate the sum of three given numbers, if the values are equal then return thrice of their sum.	20-01-2026		
3	Write a Python program to find whether a given number (accept from the user) is Even or odd, print out an appropriate message to the user.	27-01-2026		
4	Write a Python program to get the largest number from a list.	27-01-2026		
5	Write a Python program to display the first and last colors from the following list. color_list = ["Red", "Green", "White", "Black"].	03-02-2026		
6	Write a Python function to sum all the numbers in a list.	03-02-2026		
7	Write a program to implement stack using list.	10-02-2026		
8	Write a program to implement queue using list.	10-02-2026		
9	Write a program to implement ordered list in python.	10-03-2026		
10	Write a Python script to add a key to a dictionary.	10-03-2026		
11	Write a Python script to check if a given key already exists in a dictionary.	17-03-2026		
12	Write a python program to insert a key value pair in a nested dictionary.	17-03-2026		
13	Write a program to implement tuples in python.	24-03-2026		

14	Write a python script to make calculator using tkinter.	24-03-2026		
15	Write a python script to perform various function on images.	07-04-2026		
16	Write a program to implement file handling in python	07-04-2026		
17	Write a program to implement exception handling in python.	21-04-2026		
18	Write a Python program that uses regular expressions to search for a specific word in a given text and display whether it is found or not.	21-04-2026		
19	Write a Python program that uses regular expressions to search for a specific word in a given text and replace it with another word.	28-04-2026		
20	Write a Python program that uses regular expressions to validate whether a given email address is in the correct format.	28-04-2026
